- Team Leadership
- Problem solving
- Analyze complex problems
- Communication

HARD SKILL

- Programming: C, C++, Python, PHP, JavaScript, HTML, CSS
- Web Developer
- Data analysis and Data cleansing
- UX / UI

INTERESTS & HOBBIES

- Play music | Drum
- Building personal coding projects

SCHOLARSHIPS

- Faculty of Engineering, Sriracha Scholarship (Outstanding Activities) – 2022
- Outstanding Student Scholarship for Creativity and Innovation – 2022
- Outstanding Student Leader Scholarship (Student Council President) – 2023

ABOUT ME

I possess a strong background in data science, with foundational skills in data analysis and problem-solving. During my internship in web development at a government agency, I worked on designing, coding, and maintaining responsive websites, collaborating with teams to optimize performance and ensure user-friendly interfaces. This experience enhanced my expertise in web development, UX/UI design, and utilizing frameworks like Bootstrap and JavaScript libraries. I am adaptable, work well under pressure, and am committed to continuous learning, enabling me to contribute effectively to any team or project.

EXPERIENCE

April 2022
